Installation Guide

Multiple installation methods

Build-in

Surface Mount

Please make sure the frame is assembled well before fixed on ceiling

Suspended

According to the width of the panel light, drill 2 mounting holes on the mounting position

Button the panel light with the dog buckle of the equipped rope.

Twist off the rope grab device, and divide it into two parts: the upper cover and lower cover.

Fix the upper cover into prepared mounting holes with self-tapping screws (not included), and then twist on the lower cover.

Connect LED panel light by the hook of suspension wire
